STEM-ulating Science:

Science: Investigate animals on land and sea.
Technology: Learn all about alternative energy and the science of telecommunications!
Engineering: Channel your inner Newton while exploring kinetic and potential energy.
Math: Dive into solutions, measure density and become scientific mathematicians!

Science in Action: Mad Science's version of Science 101! An amazing survey series of all that science encompasses! Chemistry, electricity, forces, engineering, and the science of magic! Your child will leave with a love of all things science!
